Balls and seats supply

To the kind attention of the Purchasing Dept.

Obj.: Balls and seats : complete supply ready from our warehouse

Our company, Capelli srl, is already specialized in the mechanical working of valve parts as per drawings, but now, **with the new department for balls and seats working, we are qualified as manufacturer of 3" to 30" finished - straightened balls in A105, LF2, F304, F316, F51 and ENP plating.**

We are manufacturing from 2" up to 60" seats in the requested certified raw material

We would be glad to prepare a prototype as per your drawing.

We would like to stress that all these workings are executed by high technology computerized machines. We always remain at your complete disposal for any further information on the matter.

Best regards

Capelli s.r.l.

Dr.ssa Paola Bianchi
